DISEASE MARKERS

CONTENTS

VOLUME 4, ISSUES Nos 1 and 2 *June 1986*

SPECIAL ISSUE, WORKSHOP ON IMMUNOGENETICS AND RHEUMATOID ARTHRITIS, THE LONDON HOSPITAL MEDICAL COLLEGE, 14 and 15 NOVEMBER 1985

Preface *W. E. R. Ollier, H. Festenstein, A. Silman and H. L. F. Currey* . . v

WORKSHOP PARTICIPANTS ix

The Epidemiology of Rheumatoid Disease: Past and Present *A. Calin* . . 1

Analysis of the HLA Association with Rheumatoid Arthritis *J. C. Woodrow* 7

Multiple HLA Associations and Disease Susceptibility *J. A. Sachs and J. R. Kirwan* 13

Histocompatibility Antigens in Adult Obliterative Bronchiolitis with or without Rheumatoid Arthritis *M. C. Sweatman, J. R. Markwick, P. J. Charles, S. E. Jones, J. M. Prior, R. N. Maini and M. E. H. Turner-Warwick* 19

A Possible Haplotype Association in Felty's Syndrome *P. T. Klouda, J. L. Bidwell, J. G. Bodmer, A. Wasik and P. J. Maddison*. 27

Genetic Heterogeneity of Rheumatoid Arthritis *B. M. De Jongh, M-L. Westedt, R. R. P. de Vries, H. A. Valkenburg and A. Cats* 29

HLA-A,-B and -DR Antigens in Relation to Gold and D-Penicillamine Toxicity in Greek Patients with RA *C. Pachoula-Papasteriades, K. Boki, M. Varla-Leftherioti, I. Kappos-Rigatou, G. Fostiropoulos and J. Economidou* 35

HLA and Rheumatoid Arthritis: Susceptibility or Severity *D. Jaraquemada, W. Ollier, J. Awad, A. Young and H. Festenstein* 43

Epidemiological Aspects of Family Studies in Rheumatoid Arthritis *A. J. Silman* 55

Genetic Analysis in Rheumatoid Arthritis *A. P. Read* 59

HLA Studies in Familial and Sporadic Rheumatoid Arthritis *M. A. Khan and M. K. Khan* 67

Analysis of Genetic Susceptibility to Familial Rheumatoid Arthritis *M. A. Khan and M. K. Khan* 77

HLA and Rheumatoid Arthritis: An Analysis of Multicase Families *W. Ollier, A. Silman, N. Gosnell, H. Currey, J. Awad, P. Doyle, D. McCloskey, A. Alonso, M. A. Hossain and H. Festenstein* 85

HLA Frequency and Haplotype Analysis in a Family Study of Adult Onset Rheumatoid Arthritis *C. B. Colaco, J. Awad, H. Festenstein, A. Fielder, J. R. Batchelor, A. Alonso, D. McCloskey, M. Shipley, M. Corbett and I. M. Roitt* 99

A Multicase Family Study of Rheumatoid Arthritis in South West Ireland *M. McDermott, M. Molloy, P. Cashin, M. McMahon, S. Spencer, S. Jennings, A. Sneyd, J. Greally, A. Silman and W. Ollier* 103

Genetic Analysis of Families with Multiple Cases of Rheumatoid Arthritis *T. S. Yamashita, M. A. Khan and I. Kushner* 113

HLA Associations are with Severe Rheumatoid Arthritis *D. J. Walker and I. D. Griffiths* 121

HLA Antigen Associations with Radiological Changes in the Hands, Feet and Cervical Spines in Early Rheumatoid Arthritis *A. Young, M. Corbett, D. Jaquemada, H. Festenstein and I. Roitt* 133

SHORT COMMUNICATION
Extended Haplotypes in Rheumatoid Arthritis, and Preliminary Evidence for an Interaction with Immunoglobulin Genes *A. Puttick, D. Briggs, K. Welsh, R. Jacoby, E. Williamson and V. Jones* 139

C3, Gm and Pi Polymorphisms in Rheumatoid Arthritis *W. Thomson, P. A. Dyer, P. A. Sanders and D. M. Grennan* 145

Are Major Histocompatibility System Class III Products Independent Markers for Susceptibility to Rheumatoid Arthritis *P. A. Dyer, W. Thomson, P. A. Sanders and D. M. Grennan* 151

Rheumatoid Arthritis: Inheritance and Association with Other Autoimmune Diseases *D. M. Grennan, P. A. Sanders, W. Thomson and P. A. Dyer* 157

SHORT COMMUNICATION
Juvenile Chronic Arthritis—Families *B. M. Ansell* 163

DNA Polymorphism of the Class II Genes in DR 4 Cells *A. So and J. Bodmer* 165

New HLA DNA Polymorphisms Associated with Rheumatoid Arthritis *S. D. Cutbush, W. Ollier, J. Awad, H. L. F. Currey and H. Festenstein* . . 173

Restriction Fragment Length Polymorphism in Felty's Syndrome *D. M. Sansom, J. L. Bidwell, P. T. Klouda and P. J. Maddison* 185

HLA-DQ Molecular Heterogeneity in HLA-DR4-Dw4 Consanguineous Cell Lines *N. Fernandez, M. Labeta, M. Kurpisz, R. Solana and H. Festenstein* 191

COMMENTARY
The Future *D. A. Brewerton* 199

ANNOUNCEMENTS 201

VOLUME 4, ISSUE No. 3 *October 1986*

REVIEW ARTICLE
The Clinical Applications of DNA Polymorphisms *S. L. Thein and J. S. Wainscoat* 203

RESEARCH PAPERS

Detection of Sequences that Hybridize to Human Cytomegalovirus DNA in Cervical Neoplastic Tissue *K. Fletcher, J. W. Cordiner and J. C. M. MacNab* 219

HLA-A,B and DR Antigens in Chronic Lymphocytic Leukaemia *P. A. Dyer, J. C. Ridway and N. G. Flanagan* 231

CASE REPORT

HLA Antigens in Haemophilic Arthritis: A Family Study *M. M. Steven, R. D. Sturrock, C. D. Forbes and H. M. Dick* 237

SHORT COMMUNICATION

Genetic Heterogeneity in Uveitis *M. Cuccia Belvedere, M. Martinetti, F. de Paoli, D. Mazzacane, C. Redaelli, A. Tafi and G. Morone* . . . 243

VOLUME 4, ISSUE No. 4 *December 1986*

RESEARCH PAPERS

Detection of the Urinary 'PUM' Polymorphism by the Tumour-Binding Monoclonal Antibodies Ca1, Ca2, Ca3, HMFG1, and HMFG2 *D. M. Swallow, B. Griffiths, M. Bramwell, G. Wiseman and J. Burchell* . . . 247

HLA Antigens in Multiplex Families with Isolated Congenital Heart Disease *M. Hafez, A. Abdalla, F. El-Shennawy and S. H. Tawfik* . . 255

Characterization of a p43 Human Thymocyte Antigen *E. J. Favaloro, K. F. Bradstock, S. Kamath, G. Dowden, D. Gillis and V. George* . . . 261

A Standardized Assay to Identify Colon Cancer Genotypes by *In Vitro* Tetraploidy in Human Dermal Fibroblasts *B. S. Danes, P. D Boyle, E. Traganos and M. R. Melamed* 271

Detection of the mRNA to Placental Alkaline Phosphatase by *In Vitro* Translation and Immunoprecipitation *D. A. Nickson, J. C. Livingstone and R. G. Sutcliffe* 283

SHORT COMMUNICATION

Tissue of Origin of Elevated Alpha-Fetoprotein in Ataxia-Telangiectasia *T. Ishiguro, K. Taketa and R. A. Gatti* 293
